Feedback for Excellence

Participants’ Feedback and Evaluation...
- ... is an essential part of participants’ engagement in the pilot
- ... is required in order to request international accreditation after the pilot phase ends and the programme is released to the public

How is it done?
- Module leaders will set up webinars or live focus group discussions at the end of each module - participants provide continuous feedback
- Survey results and discussions generate input for elevating the curriculum to the next level of quality assurance
- Learning interactions will take place between partners, trainers, and students (Train-the-trainer Workshops)
Thank you for your attention
