Project „Eco-innovatively connected Danube Region (EcoInn Danube) “

## COLLECTION AND PROCESSING OF DEMAND ENTRIES IN VIRTUAL LAB

Filled in forms are received by partners of the project Ecolnn Danube and published by contact points on [www.ecoinnovative.eu](http://www.ecoinnovative.eu), contact points can contact author of the request for additional information or clear up inconsistencies.

## PROCESSED REQUEST IN LIBRARY

The screenshot displays the 'Interreg Danube Transnational Programme EcoInn Danube' website. The top navigation bar includes 'SUBMIT A REQUEST', 'ECO OFFERS / DEMANDS', 'EVENTS', and 'SUCCESS'. The main content area shows a list of requests under the heading 'DEMAND FOR ECO-SOLUTIONS'. The first request is 'Exact weather forecast for 2-4 months' by Eisberg Hungary Kft. A green arrow points from this request to a detailed view on the right. The detailed view includes the following sections:

- Description of required eco-innovation / solution / technology / resource / knowledge / product / service:** Eisberg Hungary Kft. is looking for innovative solutions for an exact weather forecast for 2-4 months.
- Background:** We need to place our order for the exact quantity of salad two months in advance in the summer and four months in the winter. Our suppliers are calculating with these numbers in planting the seedlings. Unexpected weather events (e.g. extreme heat, hail) can cause a significant decrease in the crop yield. If we can predict the likelihood of these weather events, it will help us to find alternative options in time to assure the security of supply. *Please search online for more details*
- Description of challenge to be solved:** We are looking for an eco-innovative solution for an exact weather forecast for 2-4 months time.
- Preferred stage of development of the solution / technology:** Technology readiness level (TRL): TRL 5 or above. *TRL 5: technology validated in relevant environment (industrially relevant environment in the case of key enabling technologies).*

Figure 4: Request showed in virtual lab

Annex 1: Complete template for demand for ecoinnovation:

## ECO-INNOVATION DEMAND FORM

Please let us know details of the eco-technology you offer!

\* Required

1. Email address \*

---

2. Company/ institution: \*

---

3. Country: \*

---

4. Website: \*

---

5. Contact point \*

---

**If you wish, please write direct contact to your Institution/Company (Contact person, email address, web page...).**

Please, confirm the sharing of your contact information on the webpage [ecoinnovative.eu](http://ecoinnovative.eu) in the following question.

If you do not want to publish your contact information, please select a second option.

6. Agreement for sharing contact information \*

*Check all that apply.*

- Contact person agrees to share his/her contact information, but wants the company to be anonymous on [ecoinnovative.eu](http://ecoinnovative.eu)
- Contact person agrees to share his/her contact information and publish them on [ecoinnovative.eu](http://ecoinnovative.eu)
- Other: \_\_\_\_\_

**7. Segment from where you are looking for eco-technology \***

*Check all that apply.*

- Biotechnology
- Water cleaning
- Air cleaning
- Waste management
- New buildings materials
- Energy saving technologies
- Environmentally friendly systems
- Wooden furniture care
- Other: \_\_\_\_\_

**8. Name of eco-technology you are looking for \***

\_\_\_\_\_

**9. Description what are you looking for \***

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**10. Further information (technical requests)**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**11. Key words \***

\_\_\_\_\_

**12. Form of cooperation \***

*Mark only one oval.*

- development of prototype
- development from prototype to final product
- purchase of licence
- purchase for end-user
- Other: \_\_\_\_\_

**13. Since when would you like to use it \***

\_\_\_\_\_  
*Example: December 15, 2012*

**Project co-funded by the European Union funds (ERDF and IPA)**
