CityWalk - ERDF project partner and WP2 leader:

## **Development Centre of the Heart of Slovenia**

---

The Development Centre of the Heart of Slovenia is an organization which has been leading, coordinating and connecting development projects of the area since 2000. By its reliability, professionalism and experiences!

The team of the Development Centre of the Heart of Slovenia, in cooperation with numerous local, regional, national and European partners, realizes projects to enhance the life quality of people in the region. They are included into international partnership network with almost 280 organizations from 33 countries.

The team of the Development Centre at its work considers the needs of the local environment all the time. To realize this, it organizes leads and coordinates networks, like the network of communities and municipalities, the network of tourist bidders, network of kindergartens and schools, the network of farmers, the network of craftsmen, and the network of entrepreneurs.

The vision of the Heart of Slovenia is to become a place of opportunities. By bringing together individuals, municipalities, projects, products and services in the Heart of Slovenia new opportunities arise in entrepreneurship, tourism and environment. The values represent a foundation for all cooperation, which leads to a stimulating development environment, self-sufficiency of the area and a better life quality of the people. Co-creation, knowledge and integrity are the source of excellence and welfare in the Heart of Slovenia.
