

CityWalk – Technical expert workshop

CITYWALK - TOWARDS ENERGY RESPONSIBLE PLACES: ESTABLISHING WALKABLE CITIES IN THE DANUBE REGION (DTP1-1-045-3.1)

Date: **7th JUNE 2017**

Venue: **Chamber of Commerce and Industry of Serbia** (13-15 Resavska Street, 11000 Belgrade)

Dear Sir or Madam,

Chamber of Commerce and Industry of Serbia and partnership of the project CityWalk (*Towards energy responsible places: establishing walkable cities in the Danube Region*, co-funded by EU funds ERDF and IPA) are delighted **to invite you to the Technical Expert Workshop of project CityWalk.**

Increasing greenhouse gas emissions and congestions are negative side effects of urbanization, resulting from inefficient and unsustainable local transport systems. A key challenge in cities is to improve transport systems and accessibility in an environmentally-friendly manner. CityWalk project will result in improved urban mobility – while reducing emissions, noise levels and congestions, increasing safety and making cities more liveable places (and also contributing to a healthier population).

Although the emphasis is on walking, the proposed project addresses the challenge with a holistic approach – improving urban mobility through efficiently combining various means of transport. Efficient urban transport systems, with an emphasis on active forms of transport – especially walking have various conditions – we help cities in the Danube Region to identify the obstacles, develop and implement a plan to address those obstacles.

We are looking forward to meeting you in Beograd.

Agenda

- 9.00 - 9.30 *Welcome coffee and registration*
- 9.30 - 9.50 Welcome speech – host partner:
Chamber of Commerce and Industry of Serbia
- 9.50 - 10.20 Walkability as innovative urban development tool
Béla Kézy, Urban Development Expert (HU)
- 10.20 - 10.50 Urban planning (architecture point of view on walkability)
Ph.D. Aleksandar D. Slaev, Varna Free University (BG)
- 10.50 - 11.15 *Coffee break*
- 11.15 - 11.45 Transdanube.Pearls - network for sustainable mobility along the Danube
