

## AGENDA

**8:30**      **Registration**

---

**9:00**      **Workshop Opening**

- Workshop opening – welcome addresses
  - CAMARO-D project - Introduction (*Daniel Kozelj, University of Ljubljana, Faculty of Civil and Geodetic Engineering*)
- 

**9:30**      **Presentations**

- GUIDR presentation (*Barbara Čenčur Curk, University of Ljubljana, Faculty of Natural Sciences and Engineering*)
  - Hydrological and hydraulic model of the Iška river (*Urban Kristan, University of Ljubljana, Faculty of Civil and Geodetic Engineering*)
  - Hydrogeological model of Iška peak (*Mitja Janža, Geological Survey of Slovenia*)
  - Identification of some problems in water management through interviews in public and state administration - preliminary conclusions (*Andrej Lukšič, Institute of Ecology*)
  - Presentation of the results of the 1st National Workshop (lg, 14.6.2017) (*Branka Bračič Železnik, Public Water Utility Ljubljana*)
- 

**11:00**      **Coffee break**

---

**11:30**      **Workshop**

1. Discussion of good practices and measures for the protection of water resources and flood protection, which were highlighted at the 1st National CAMARO-D Workshop
2. Integration of hydrological, hydraulic and hydrogeological models into the decision making process
3. Communication and noise in the process of implementing the results of the projects (from idea to execution measures)

Within the workshop, we want to exchange experiences of the present stakeholders, identify the main proposals and discuss them thoroughly.

---

**12:30**      **Workshop analysis and conclusions**

---

**13:00**      **Lunch**
