TP1 Innovative ecosystem for SMEs

Innovative Ecosystem brings together organisations and partners whose main goal is to enable and foster technology development and innovation. In other words, the Innovative Ecosystem shall, in the scope of the DTP programme, enable collaborative innovation between project partners, their stakeholders and target groups, through combining complementary resources, systems and support, with a clear goal to generate new products, features, processes, services or value. The collaborative aspect is utmost important since it creates value that cannot be produced by the organisation on its own.

**Thematic Pole 3 is linked to SO1.2: Innovative and socially responsible Danube region
EUSDR PACS : PAC 7, PAC 8, PAC 9.**

TP2 RDI framework support

RDI framework aims to contribute to the mission of the DTP and the S.O.1.1 by creating links between the local, regional, national, macro-regional and European levels while looking to improve the framework conditions for research and innovation in the Danube Macro region. Particular focus is put on policy dialog and development of new tools and instruments as well as on knowledge transfer, capacity building and awareness raising within the quadruple helix. The two main thematic fields are related to Responsible Research and Innovation (RRI) and Research infrastructures (RI).

**Thematic Pole 3 is linked to SO1.2: Innovative and socially responsible Danube region
EUSDR PACS : PAC 7, PAC 8, PAC 9.**

TP3 Entrepreneurial Learning Systems

Entrepreneurial Learning Systems fosters cooperation between key stakeholders of labour market, education and research policies in order to develop learning regions and environments that shall jointly increase the innovative capacities of the labour force in the Danube Region. It will be achieved through new forms of partnerships and cooperation among key stakeholders (labour market, education and training, research and employers). Employers (private, public and voluntary) have an important role to play in identifying the knowledge, skills and competences needed in working life.

**Thematic Pole 3 is linked to SO1.2: Innovative and socially responsible Danube region
EUSDR PACS : PAC 7, PAC 8, PAC 9.**

TP9 Educational governance

Educational governance aims to tackle the challenges of lack of skilled labour force combined with high unemployment rates indicates serious labour market imbalances in the Danube Region, that highlights the need of a systematic shift towards more demand-driven and labour relevant educational schemes.

Thematic Pole 9 is linked to SO4.1 Improve institutional capacities to tackle major societal challenges

EUSDR PACS : PAC 7, PAC 8, PAC 9 and PAC 10.

Thematic links inside TP3

Skills- and capacity-building of vulnerable social groups (e.g. youngsters, social enterprises, young professionals)
