

EC DAY 2019

AMATEUR VIDEO COMPETITION 2019

A. Background

Interreg is an initiative specifically dedicated to helping European regions work together to find solutions to common economic, environmental, social and cultural challenges. The initiative is implemented through cooperation programmes under the European Territorial Cooperation (ETC) objective of Cohesion Policy 2014-2020. These programmes jointly tackle common challenges and find shared solutions through implementation of projects.

Interact programme aims to ensure the exchange of experience, information and innovation in order to promote best practice and make cooperation easier. We achieve this through targeted publications, tools and events.

The **European Cooperation Day**, also known as EC Day, is a campaign coordinated by Interact to promote the benefits of cooperation among regions. We commemorate the European Cooperation Day on 21 September every year. But why do we celebrate cooperation? Europe is a mix of cultures and economies that need to understand each other in order to reach their maximum potential. For this reason, the European Union (EU) encourages cooperation in different ways. One of them is through the cooperation programmes, which allocate more than 10 billion euros for the regions to work together on common challenges: climate adaptation, social inclusion, migration... How is this done in practice? Through projects involving regions all over Europe and neighbouring countries. They have helped increase cultural understanding and overcome economic disparities throughout territories.

B. Aim and context of the amateur video competition

The Interact Programme invites all Interreg, IPA and ENI programmes involved in the EC DAY campaign 2019 to organise an amateur video competition to raise citizens' attention and engage them by making them showcase their feeling towards simple but communicative videos. The aim is to capture the essence of a European spirit and feeling through a video that would 'speak' to both stakeholders and the general public.

Each competition will aim at promoting a higher engagement of people in the framework of the celebration of the EC Day.

Programmes will boost and the creation of simple amateur videos made with smartphones by participants in their local language.

The main concept of the videos should be a brief response (maximum duration 40 seconds) on why 'EUROPE IS YOU' (and why Europe benefits you), in line with the slogan of the EC DAY campaign 2019.

The main target audience is high school and university and college students.

The winning video will receive a prize/recognition.
